AKYATKU.COM - Construction of an oil refinery in Selayar Islands District will be held in March 2017. Quoted from the site Abdulhadi Bakri and Partners Petroleum, construction of the plant will be managed by PT Saudi Indojoya International that cost about 10 billion United States dollars (US).

Discussion of the plan was held at the Head Office Meeting Room Regent Selayar Islands, Friday (01/20/2017).

From an official statement received Rakyatku.com, President Director of PT Saudi Indojoya International, Mappasulle HSmenjelaskan, there are two groups of investors who want to enter

the South, the group of Egypt and to the west coast of South America, as well as a group of Saudi Arabia and to the east coast of South America.

According to him, Selayar geographically located in the middle of the intersection between the western and eastern Indonesia. "The South has a deep sea to allow tankers to maneuver in this area," he explained.

Saudi Indojaya International has obtained approval of Foreign Investment (PMA) number 425 / I / PMA / 2007 dated 11 April 2007 from the Coordinating Board Monday, January 23, 2017 Capital Investment of the Republic of Indonesia (BKPM-RI). Later, the oil refinery
